

# Why we offer **age-costed Income Protection** insurance premiums

Here's how they can benefit your clients:

## AFFORDABLE

Starts at a lower cost than fixed premiums, making it better value for clients in their 20s and 30s.

## SUSTAINABLE

Provides protection to a range of your clients as they grow their finances over time.

## FLEXIBLE

The total cost over the years is competitive with fixed premiums through more tailored cover.

I'm hoping to continually progress in my career. With age-costed premiums, my payments adjust as my salary grows.
